*Exclusive Simplicity
Stamps This
Frock*

*In Dull-Finish
Terra Cotta Satin*

*Ocean Blue
With Military
Braiding*

*Clever Lines in
Popular Sand
Color*

*An
Old-Fashioned
Black and
White Check*

THE one-piece jacket frock is a new and very chic idea in fashions. A thing which is emphatically in its favor is its becomingness to most women. The military influence is, in all probability, responsible for the fashion, in proof of which the simple suit of dark blue cloth with its regimental row of buttons stands forth. The decorative patch pockets are braided in soutache braid of a lighter shade and old-gold braid of the same width. The blue and gold is a well-known military color combination. If the suit is for a very young girl, and it is considered desirable to place emphasis upon the military inspiration of the frock, the buttons used may be of brass or gold plate. Buttons of the same kind should also be used upon the skirt and cuffs of the suit. A gold buckle fastens the belt of the frock. The white organdie turnover makes a pretty finish for the collar.

Exceedingly smart is the jacketed frock with the closing of the jacket at the choker only. The material used is terra-cotta satin with a dull finish. With the frock a white chiffon underblouse is worn. The corded shirring about the hips gives the popular yoke effect. This can be omitted if length of line is desired.

The frock of sand-colored serge has a unique jacket "tail" in the form of a slashed peplum, the whole caught to the figure by a sand-colored suede belt. The skirt is plain but full. The small hat is one of the jauntiest hats of the season. A white reche finishes the neck.

Ocean blue, one of the very new shades, is seen in the frock with military braidings of the same color. The material used may be broadcloth, gabardine, voile or heavy serge. Cream-colored taffeta forms the vestee and overlapping collar.

The old-fashioned black-and-white-check material in various sizes is again coming into favor. As yet, however, it has appeared only in silks. The jacket frock pictured is of black-and-white checked taffeta with a quaint trimming of black velvet bands. Black velvet buttons supply further ornament and white net softens the bodice. Needless to say, none but the slender woman must attempt the wearing of these checks.

All the frocks pictured, with the exception of the checked model, can be duplicated to advantage in linen or some similar summer material of heavy weight. The sand-colored frock and that of terra-cotta satin can be duplicated in heavy pongee. While the suit of dark blue cloth with patch pockets would at first seem an excellent model for duplicating in pongee, this material is too lacking in "foundation" to appear to advantage made up along such severe lines. If made in linen, the frocks should receive no stiffening when laundered. In each case the jackets of the frocks are made fast to an underlining which connects jacket and skirt. The jackets can, however, be made separate, if so desired.

If you would be really smart for spring, a jacket frock is a safe venture.

STILL BRIBED BY GERMANY

Germany is Quite Ready to Sacrifice Austria

No Efforts So Far Are Unavailing.

London, March 12.—The diplomatic negotiations in regard to Italy's position in the war are continuing at the same rate as the reports are that the Italian government is not prepared to accept the terms of the Chamberlain of Deputies, and the excitement and suspense are very considerable. Baron Sonnino, the Italian Minister, held a conference yesterday and today with Sir J. Balfour, the British Ambassador, and the Italian Minister of War, the chief of the staff and the director of the bank of Italy and the director of the post office.

THE GREEK CRISIS DELAYED.

London, March 12.—A despatch received from Athens today states that the Greek Parliament was adjourned for one month by a Royal decree published last night, and that the Chamberlain will in all probability be dissolved. The Greek government is expected to accept the terms of the Chamberlain of Deputies, and the Greek government is expected to accept the terms of the Chamberlain of Deputies.

BRITISH MOVE STEADILY ON

Field Marshal French's Report Tells of Progress.

The Capture of Positions Near La Bassee.

London, March 12.—A report of the activities of the British army in the north of France, which was given by Field Marshal French, the British Commander-in-Chief, in a despatch to the War Office, states that the British army has made considerable progress in the capture of positions near La Bassee.

The heavy artillery was very effective in the capture of positions near La Bassee, and the British army has made considerable progress in the capture of positions near La Bassee.

HOW FAT FOLKS MAY BECOME THIN

(By Elizabeth Thomas.)

Perhaps you are suddenly becoming fat, or maybe you have been putting on weight for years. In either case the cause is the same—lack of exercise, overeating, and too much worry. This trouble occurs in adults of both sexes and all ages, but it can be overcome very easily and without the aid of the physicians that most people imagine necessary to reduce their weight.

SHIPS BIG GUNS

British and German Naval Armaments Compared.

One of the long-standing controversies in which the opposite sides have reached a common conclusion is that regarding the best kind of main armament for battleships. Some have held that the delivery of a large volume of fire of shells of moderate caliber, others that a smaller volume of fire of shells of greater weight is preferable. The former school found support in the German navy, and the first battleships of their modern type carried nothing larger than the 11-inch gun, the latter in the British navy.

THE 15-INCH GUN WAS FIRST MOUNTED IN THE "QUEEN ELIZABETH" class, which was followed by five vessels of the "Kaiser" class, and then the "Queen Elizabeth" class, which was followed by five vessels of the "Kaiser" class, and then the "Queen Elizabeth" class, which was followed by five vessels of the "Kaiser" class.

"Bringing Up Father" Going on the Stage

THIS extremely successful comedy cartoon series by Gordon McPherson, which has been running in the United States and Canada, has been made the nucleus of a musical comedy for stage production by Mr. Geo. Hill, whose theatrical efforts for the past three years have been directed exclusively to musical offerings. As a result of his success in this line, Mr. Hill, who has been making millions by exploiting cartoon plays, "Bringing Up Father," the famous cartoon more or less successfully commonly called "Fanny Hill," has added that enormous popularity because they evoke a momentary innocent amusement, produced by a ludicrously comic picture of a man in a suit and hat, who is always making fun of the funny part, whether it is a man or a woman, or both.

IT is not difficult to see that a two-act musical comedy, containing about all of the best elements of a musical comedy, and interspersed with catchy musical numbers and a chorus of capricious songs, will be a success. The musical comedy, "Bringing Up Father," is a musical comedy, and it is a musical comedy.

Confessions of a Wife

I left with Harry and Mr. Hatter, and went up to the nursery where I knew I should find him. The twins were up in a bunch of arms and legs from today's bed, in which they were both lying and well content with a short nap.

"Dear old Harry, now that I have come to this, I must tell you that I am not a very good mother," said "Mother" as they began to cry.

"No, dear, Aunt Margie, now that I have come to this, I must tell you that I am not a very good mother," said "Mother" as they began to cry.

"No, dear, Aunt Margie, now that I have come to this, I must tell you that I am not a very good mother," said "Mother" as they began to cry.

the amount of his subscription for stock, and the number of shares and votes. Stanley H. Slater represented the plaintiff company, and E. S. Gallagher the defendant. On the trial of this action the court heard testimony from the subscription list on the part of Mr. Brinker, one of the promoters who induced him to subscribe for the stock. His statement was corroborated by the testimony of Mrs. Ford, were believed in preference to those of Mr. Brinker, and the company's suit was dismissed. The court also heard testimony from the subscription list in support of the plaintiff's view of the matter, and the position taken by Mr. Brinker vindicated by the stock decision.
